Stunning.

The Jetta.

In 2008, the Jetta was launched in India. This notchback model, technically based on the globally successful Golf, can look back at a 30-year success story in Europe and has long established itself as the most popular car in the USA from a European manufacturer. Over five generations, more than eight million units of this model range have rolled off the assembly line to date.

The Jetta is available in three versions with two powerful and efficient engines: Jetta 1.6 Trendline, Jetta 2.0L TDI Trendline and Jetta 2.0L TDI Comfortline.

Already in the Trendline version, the Jetta offers extensive comfort and comes packed with functions and safety equipment. As the name suggests, the Jetta Comfortline offers a wide range of comfort-oriented standard equipment that ensures you reach your destination absolutely relaxed.

The combination of innovative features, harmony of design and impressive dynamics make the Jetta what it is – a compact saloon radiating sporty elegance that you will want to experience for yourself. The traditional Volkswagen qualities of reliability and a long service life ensure that the Jetta offers you supreme driving enjoyment. So, turn the page and discover the exquisitely designed, German engineered Jetta.

Exhilarating.

Design.

Those who place high demands on life require a car that not only looks good but also delivers that extra bit. With its streamlined silhouette, distinctive design and sporty yet elegant appeal, the Jetta offers all you would expect and more.

The Jetta's world-class workmanship of all components and harmony of design are evident wherever you look. Narrow gap dimensions on the body underline the high-grade appearance and reduce wind noise to a minimum. A rear window aerial ensures flawless radio reception. The front headlights and turn signals are combined under an attractive clear glass cover and emphasise the sporty lines of the Jetta. Elegant chrome trim on the side windows (Comfortline) and colour-keyed bumpers, door handles and door mirror housings with integral turn signals put the finishing touches to the stylish appearance of the Jetta.

The interior fulfils the promise of the Jetta's impressive exterior. The easy-care "Vienna" leather upholstery creates an exclusive ambience and provides enhanced sitting comfort (Comfortline). All displays and functions have a driver-oriented, user-friendly layout and perfected ergonomics. The chrome-plated gear knob surround and handbrake button introduce a level of refinement indicative of Volkswagen's first-rate build quality throughout.

Chrome-plated radiator grille surround and louvres.

To make it a class above the rest, the Jetta comes complete with LED tail lights.

16-inch "Toronto" alloy wheels

Pure Luxury.

Comfort.

The Jetta has comprehensive equipment right from the Trendline version. The list of standard equipment includes durable “Glow” cloth upholstery, multi-function display (Jetta 2.0L TDI Trendline), RCD 310 audio system with MP3 compatible CD changer, electric front and rear windows, front fog lights (Jetta 2.0L TDI Trendline), central locking with radio remote control and electrically defogged, adjustable door mirrors.

True to its name, the Comfortline version offers a high degree of driving comfort. The deluxe sports seats at front with electrically adjustable lumbar support ensure that you will arrive relaxed at your destination.

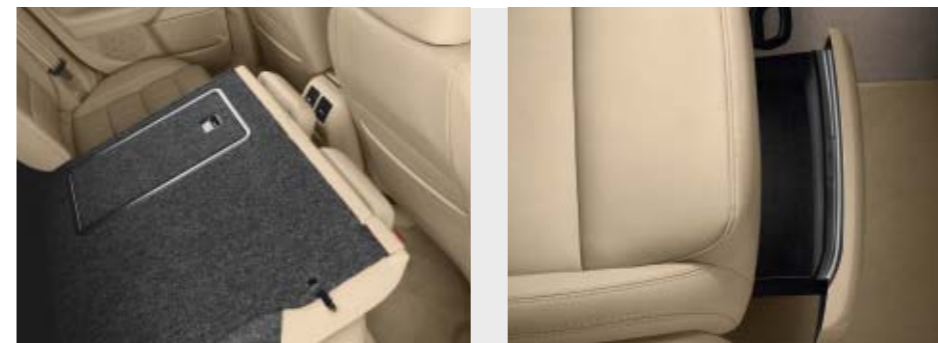

Maximum driving comfort is assured by additional features such as cruise control – that keeps the speed at a set level – and the “coming home” and “leaving home” function. The headlights and tail lights illuminate the area around the car for your convenience when getting in or out in the dark.

Another special feature is the “Climatronic” electronic air conditioner, which has a separate 2-zone temperature control for the driver and front passenger (Jetta 2.0L TDI Trendline).

Add to that, the leather-covered multi-function steering wheel, which allows control of the multi-function display and the RCD 510 touch screen audio system that comes with MP3 player function, 6-disc CD changer and 10 loudspeakers.

The Jetta also has convenient storage space for journeys.

The rear seat backrest with integral centre armrest can be folded down into separate sections. Practical drawers under the front seats, a glove compartment with cooling facility and pockets on the doors for water bottles ensure that there is space for everything.

Refreshing.

Engines and Transmissions.

The Jetta has two powerful and efficient engines at its disposal. The 4-cylinder 1.6 litre petrol engine delivers an impressive 102 PS. This proven, economical unit is equipped with a 5-speed manual gearbox and ensures optimum transmission of power with short, well-defined gear changes.

The 5-speed manual gearbox ensures optimum transmission of power with short, well-defined gear changes.

The 2.0L TDI with "Common Rail" direct injection technology eliminates any compromise – you can have performance as well as exceptional economy. It develops impressive torque of 250 Nm at 1500~2500 rpm.

Breathtaking.

Safety.

Only when you feel safe can you drive confidently. The greatest importance is, therefore, attached to your protection with a whole range of new generation safety features fitted as standard.

The comprehensive active safety concept helps to avoid critical situations. This starts with the carefully matched running gear. The electro-mechanical power assisted steering makes for absolutely effortless manoeuvring.

If the latter combination of systems detects a deviation from safe vehicle handling, it stabilises the car by braking individual wheels and intervening in engine management. ABS prevents wheel lock when braking hard so that the vehicle remains steerable on slippery surfaces.

Passive safety features include airbags for the driver and front passenger with a deactivation function for the passenger airbag, curtain airbags at front and rear and side airbags at front. Side airbags and belt tensioners are also available for rear passengers (Comfortline).

The optimised McPherson front axle provides outstanding stability in every driving situation.

The 4-link rear axle improves cornering behaviour.

Further active safety features include an Anti-lock Braking System (ABS) and an Electronic Stabilisation Programme (ESP) (Comfortline) with Electronic Differential Lock (EDL) and Traction Control System (ASR).

Head Turning.

Technical Specifications.

Design Lines.

For the different versions of the Jetta, two design lines are available: Trendline and Comfortline

Jetta Trendline

Exterior

- 16-inch “Toronto” alloy wheels with 205/55 R 16 tyres
- Colour-keyed door mirror housings and door handles
- Door mirrors with integral turn signals
- Halogen main headlights and turn signals under one clear glass cover
- Galvanised body
- Radiator grille and frame in chrome
- Tail lights with LED technology
- Colour-keyed bumpers and rubbing strips
- Green-tinted, heat-insulating windows

Interior

- “Glow” pattern flat weave seat upholstery
- 2 cup holders at front and 2 at rear
- 2 AC vents at rear
- Storage compartment with lid on headlining
- Pockets on doors (with holder for 1-litre bottles at front)
- Anthracite metallic inserts for instrument panel, centre console and door panel trim
- Driver’s seat with height adjustment
- Lockable, illuminated glove compartment with cooling facility
- Asymmetrically split-folding backrest
- Front centre armrest with storage compartment
- Sunglass holder on headlining

Safety

- 6 airbags
- 3 rear head restraints
- Safety-optimised front head restraints
- Anti-lock Braking System (ABS)
- Electronic immobiliser
- Fog lights (Jetta TDI 2.0 Trendline)
- ISOFIX mounting points for securing 2 child’s seats on rear seat
- 3-point inertia reel front seat belts with height adjustment and belt tensioners

Operating Equipment

- “Climatic” air conditioner (Jetta 1.6 Trendline)
- “Climatronic” air conditioner with 2-zone temperature control (Jetta TDI 2.0 Trendline)
- Multi-function display (Jetta TDI 2.0 Trendline)
- RCD 310 audio system with MP3 compatible CD changer, 8 loudspeakers and aux-in facility
- Electric windows at front and rear
- Central locking with radio remote control
- Electro-mechanical power assisted steering
- 2 reading lights at front
- Electrically adjustable, defogged door mirrors
- Luggage compartment lid with automatic opening mechanism
- Steering column with height and rake adjustment
- Remote opening and closing windows

Jetta Comfortline (additional to or different from the Trendline equipment)

Exterior

- Chrome trim on side windows

Interior

- “Vienna” leather seat upholstery
- Deluxe sports seats at front
- Electrically adjustable lumbar support for front seats
- Rear centre armrest
- Illuminated vanity mirrors
- Drawers under front seats

Safety

- “Plus” anti-theft warning system
- Electronic Stabilisation Programme (ESP)
- Traction Control System (ASR)
- 2 additional side airbags for rear passengers
- Interior surveillance

Operating Equipment

- Cruise control
- RCD 510 touch screen audio system with MP3 player, 6-disc CD changer, 10 loudspeakers and inbuilt SD Card Reader
- Leather-covered multi-function steering wheel with operating facility multi-function display and audio system.
- Light and sight package: Automatic driving light control with “coming home” and “leaving home” function, automatically dimming rear view mirror, 2 lights in front footwell, rain sensor
- Electrically foldable rear view mirrors
- “Plus” multi-function display

Paint Finishes.*

The intricate painting process applied by Volkswagen complies with the very highest requirements. Galvanisation provides reliable protection against corrosion. This gives the best possible protection against oxidation during the vehicle's entire lifetime - with a thickness of less than 20 millionths of a millimetre.
